GERMANS RETREATING, IS DUTCH REPORT.

AMSTERDAM, Holland, January 16, via London 6:20 p.m.-The correspondent at Ostend of the Tijd says the Germans have evacuated all the coast towns and villages as far north as Mariakerke, which is north of Nieuport, Westende and Middelkerke and three miles southwest of Ostend.

These towns, however, have not as yet been occupied by the allies. The British losses in France and Flanders January 1 to January 13 are estimated by the Nieuwe Rotterdamsche Courant at 190 officers and 6,200 men.

LONDON, January 17.—It is reported here that the British have driven the Germans out of three coast towns and are preparing to reoccupy Westende, Middlekerke and Mariakerke, three miles from Ostend. The British fleet's guns aided in forcing the Germans to evacuate those towns.

Nine British, French and Belgian aviators dropped bombs on the railroad station and barracks at Ostend, causing considerable

the railroad station and barracks at Ostend, causing considerable come up automatical damage, according to a dispatch to Lloyd's News from its correspondent on the Franco-Belgian border.

The French, who are strongly intrenched along the Aisne river on either side of Soissons, with the assistance of the floods, apparently have checked any further German advance, and big guns have taken the place of prise, and beyonets in the fighting in t that region. In fact, artillery continues to play the leading role, although here and there along the line attacks and counter attacks have been made. The Germans in one of these recaptured some trenches near Carency, but their attacks alsewhere, particularly near Flirey, south of Thiaucourt

where they have been most violent, have not been so successful.

Germans Recover Lost Ground.

The Germans have displayed much activity in their effort to recover ground they lost during the offensive undertaken by the allies late in December. Their efforts are interpreted for the remainder of the successful to confirm their conviction that the ottensive of Gen. Joffre, the French commander-in-chief, has broaden down.

Maj. Moraht, writing in the Tageblatt, says the total French losses in the three days' fighting in the Soissons district must have reached 30,000. His conclusion is that this victory must expedite the German operations in the Argonne forest and around the French fortress of Vardun.

NEW YORK, January 16 .- Practical training gives girls independence and precludes the necessity for marriage without love, said former President Taft today in an address at the annual meeting of the Hebrew Technical School for Girls.

"According to your report, 2,700 girls have been graduated from this school, and I am glad to see that only 260 got married," said the former President. His Acts Were Ordered.

Patrolman Lloyd, in his petition, alleges that his acts were committed on the orders of J. Edward Holler, who resigned as chief of police after pleading guilty to the federal indictment, and had the approval of Mayor Roberts, "who at all times had notice and knowledge of the acts of Holler." He also asserts that he is guilty of no breach of discipline and there are no provided the club after the police had gained an entrance. The men will be given a hearing to-morrow morning.

Strong efforts are now being made by Commander Joseph A. FRENCH SUBMARINE IS SUNK.

BERLIN, January 16, by wireless telegraphy to Sayville, L. I.-The Turkish official statement issued in Constantinople today announces that the French submarine Saphir, while trying to enter the Dardanelles, was sunk by Turkish artillery. Part of the submarine crew was rescued.

The Saphir displaced 386 tons and carried a crew of about twenty-one men. She was 154 feet long and was 12.7 feet beam. She was fitted with six torpedo tubes and was capable of traveling twelve knots on the surface and eight knots when submerged. She was built at Toulon in 1908.

PETROGRAD, January 16.-The Turks have been irretrievbly beaten in the Trans-Caucasus. The 11th Army Corps, sent from Erzerum to check the rout of the broken 10th Corps near Kara-Urgan, has been hurled back, together with the remnants of the 10th, and its rout has been even worse than that of the 10th. Both armies are on the verge of annihilation, and if the Russian successes continue the operations of the Turks in that zone will be ended, as reinforcements from Europe are blocked by the Russian fleet.

reported to have met further disaster at the hands of the Russians. The 11th Army Corps, sent from Erzerum to help the broken 10th Corps, which was making a stand at Kara-Urgan, according to Petrograd advices, has met with a defeat, which some correspondents describe as irretrievable.

Should this reverse prove as serious as reported, the Turkish position would be extremely aerious, for the Russian fleet is in a position to prevent reinforcements being sent from Europe, having already sunk eight sailing vessels carrying troops.

Enver Pasha Fears Conspiracy.

Enver Pasha, the Turkish war minister and leader of the Young Turks, has returned to Constantinople to pu down a conspiracy discovered there against that organization, and particuarly against Enver Pasha himself.
